BONUS 2: The WeddingForge Notion Wedding Dashboard

Your Complete Day-by-Day Planning System

Why Notion for Wedding Planning

Wedding planning apps have one fatal flaw: they are closed systems. You cannot customize the categories, the views, or the logic. Notion is an open canvas that bends to how your brain works — not the other way around.

Why Notion beats the alternatives:

TOOL	PROBLEM
Paper planners	No search, no formulas, destroyed by coffee
Wedding apps (Zola, The Knot planner)	Locked categories, upsell-driven, no partner permissions
Excel/Google Sheets	Great for numbers, terrible for tasks and linked information
Notion	Combines databases, documents, task lists, and linked views in one place

The free Notion tier is completely sufficient for wedding planning. You do not need a paid account. Go to notion.so, create a free account, and start building.

Notion works on iPhone, Android, and any browser. Once you install the mobile app and turn on offline access, you will have your entire wedding plan accessible on the day-of even without cell service.

Dashboard Architecture

Create a new page in Notion. Title it: `WeddingForge — [Partner A] & [Partner B]`

Add a cover photo (click "Add cover" at the top — use an engagement photo or a color that matches your wedding palette). Add an icon (the ring emoji works well).

Inside this root page, you will create the following sub-pages. Use the "/" command to insert a new page, or click the "+" icon in the left sidebar.

PAGE	ICON	PURPOSE
HOME	Use a house emoji	Command center with live stats and quick links
MASTER CHECKLIST	Use a clipboard emoji	Full planning task database
BUDGET	Use a money bag emoji	Budget tracking linked to tasks
VENDORS	Use a handshake emoji	Vendor CRM and contract hub
GUESTS	Use a people emoji	Full guest list and RSVP manager
TIMELINE	Use a calendar emoji	Wedding day minute-by-minute schedule
NOTES & IDEAS	Use a lightbulb emoji	Mood board, vow drafts, song lists
DOCUMENTS	Use a folder emoji	Contract links and important file storage

---

Page 1: HOME Setup

The HOME page is the first thing you and your partner see every time you open the workspace. Design it to answer: "What do I need to do right now?"

SECTION 1: THE WEDDING HEADER

At the top of the page, type:

```
[Partner A] & [Partner B]
Getting Married — [City, State] — [Full Wedding Date]
```

Make the first line Heading 1. Make the second line regular text, color gray.

Directly below, add a **Callout block** (type `/callout`). Inside it, write your wedding north star sentence — the one-sentence description of what you want guests to feel on your wedding day. Example:

> "Our guests will leave feeling like they just attended the best dinner party of their lives — relaxed, celebrated, and completely present."

This sentence is your decision filter. Every vendor choice, every decor decision, every schedule item should serve this feeling. Having it at the top of your workspace means you see it every single time you open Notion.

SECTION 2: COUNTDOWN AND QUICK STATS

Type `/callout` to create a second callout block. Inside it, build a simple stats row:

```
Days Until Wedding: [manually update this weekly, or link to a formula]
Guests Confirmed: [link to GUESTS database count]
Budget Remaining: [manually update from Google Sheets dashboard]
Tasks Complete: [link to MASTER CHECKLIST count]
```

Note: Notion does not have live date-countdown formulas the way Google Sheets does. Update the "Days Until Wedding" number manually each Sunday — this takes 10 seconds and keeps you grounded.

For the other stats, you can use **Linked database views** (explained below) to pull counts automatically.

SECTION 3: FILTERED TASK VIEWS

Add two linked database views that pull from your MASTER CHECKLIST database. These live on the HOME page so you can see urgent items without clicking into the full checklist.

View 1: Overdue Tasks

1. Type `/linked view of database` and select MASTER CHECKLIST
2. Add filter: Status is not "Done" AND Month Due is before current month

3. Set view type to List
4. Title it "Overdue — Handle These First"
5. Limit to showing 10 items

View 2: Due This Week

1. Add another linked view of MASTER CHECKLIST
2. Add filter: Status is not "Done" AND Priority is "Critical" or "High"
3. Sort by Priority (Critical first)
4. Title it "Up Next This Month"
5. Limit to 15 items

SECTION 4: QUICK LINKS

Add a **3-column layout** (type `/3 columns`) with quick-link buttons to every other page:

- Column 1: MASTER CHECKLIST, VENDORS
- Column 2: GUESTS, PAYMENTS (link to your Google Sheets PAYMENTS tab here)
- Column 3: TIMELINE, NOTES & IDEAS

To add a page link, type `@` followed by the page name. Notion will auto-link it.

Page 2: MASTER CHECKLIST Database

This is the most important database in your workspace. Every task from engagement to honeymoon lives here.

CREATING THE DATABASE

1. Navigate to the MASTER CHECKLIST page
2. Type `/database` and select "Full page database"
3. Select "Table" view

DATABASE PROPERTIES

Click the "+" button at the top of the table to add each property:

PROPERTY NAME	TYPE	OPTIONS
Task Name	Title	(default — rename from "Name")
Category	Select	Foundation / Booking / Design / Final Stretch / Week-Of / Post-Wedding
Month Due	Select	Month 1 / Month 2 / Month 3 / Month 4 / Month 5 / Month 6 / Month 7 / Month 8 / Month 9 / Month 10 / Month 11 / Month 12 / Month 13-18+
Priority	Select	Critical / High / Medium / Low
Owner	Person	(invite partner to workspace first)
Status	Select	Not Started / In Progress / Done / Blocked
Vendor	Relation	(link to VENDORS database once created)
Notes	Text	
Done	Checkbox	

Color-code your Priority select options:

- Critical = Red
- High = Orange
- Medium = Yellow
- Low = Gray

Color-code your Status select options:

- Not Started = Gray
- In Progress = Blue
- Done = Green
- Blocked = Red

COMPLETE TASK LIST BY MONTH

Enter every task below into your database. Each row is one task.

MONTH 1 (Engagement Month) — Foundation

TASK	CATEGORY	PRIORITY	OWNER
Announce engagement to immediate family	Foundation	Critical	Both
Set a preliminary wedding budget range	Foundation	Critical	Both
Discuss wedding vision and priorities	Foundation	Critical	Both
Create this Notion workspace	Foundation	High	Both
Create WeddingForge Google Sheets tracker	Foundation	High	Both
Research wedding date options	Foundation	High	Both
Create initial guest list (everyone who MUST be there)	Foundation	High	Both
Research wedding insurance options	Foundation	Medium	Both

MONTH 2 — Booking: Venue and Key Vendors

TASK	CATEGORY	PRIORITY	OWNER
Tour at least 3 ceremony venues	Booking	Critical	Both
Tour at least 3 reception venues	Booking	Critical	Both
Book ceremony and reception venue	Booking	Critical	Both
Sign venue contract and pay deposit	Booking	Critical	Both
Research and interview photographers (minimum 4)	Booking	Critical	Partner A
Research and interview videographers (minimum 3)	Booking	High	Partner A
Book photographer — sign contract, pay deposit	Booking	Critical	Both
Set final guest count ceiling	Booking	Critical	Both
Send save-the-dates (for peak-season dates)	Booking	High	Both

MONTH 3 — Booking: Catering and Entertainment

TASK	CATEGORY	PRIORITY	OWNER
Research and interview caterers or confirm venue catering	Booking	Critical	Both
Schedule catering tasting	Booking	Critical	Both
Book caterer — sign contract, pay deposit	Booking	Critical	Both
Research DJ and/or band options	Booking	High	Partner B
Interview at least 3 DJs or bands	Booking	High	Partner B
Book DJ or band — sign contract, pay deposit	Booking	High	Both
Book videographer — sign contract, pay deposit	Booking	High	Both
Research officiant options	Booking	High	Both

MONTH 4 — Booking: Beauty and Florals

TASK	CATEGORY	PRIORITY	OWNER
Begin wedding dress shopping	Booking	Critical	Partner A
Research and interview florists (minimum 3)	Booking	High	Partner A
Schedule floral consultations	Booking	High	Partner A
Book florist — sign contract, pay deposit	Booking	High	Both
Research and book hair and makeup artist	Booking	High	Partner A
Schedule hair and makeup trial	Booking	High	Partner A
Book officiant — confirm availability	Booking	High	Both
Research rehearsal dinner venue options	Booking	Medium	Both

MONTH 5 — Design and Details

TASK	CATEGORY	PRIORITY	OWNER
Order wedding dress	Booking	Critical	Partner A
Design and order invitations	Design	High	Both
Finalize ceremony outline with officiant	Design	High	Both
Design floor plan with venue coordinator	Design	High	Both
Create ceremony music wishlist for DJ/band	Design	High	Both
Create reception music wishlist	Design	High	Both
Research transportation options	Booking	Medium	Partner B
Book transportation — sign contract, pay deposit	Booking	Medium	Both
Plan honeymoon (book flights if traveling)	Booking	Medium	Both

MONTH 6 — Halfway Point Check

TASK	CATEGORY	PRIORITY	OWNER
Mail invitations (for weddings with 6-month lead time)	Design	Critical	Both
Set up wedding website (if not already done)	Design	High	Both
Confirm all major vendors are booked	Booking	Critical	Both
Review full budget actuals vs. plan	Foundation	High	Both
Finalize rehearsal dinner guest list and venue	Booking	High	Both
Begin tracking RSVPs as they arrive	Foundation	High	Both
Research wedding rings	Booking	High	Both
Purchase wedding rings	Booking	Critical	Both

MONTH 7-8 — Design Details

TASK	CATEGORY	PRIORITY	OWNER
Complete hair and makeup trial	Design	Critical	Partner A
Begin dress alterations (first fitting)	Design	Critical	Partner A
Confirm wedding party attire (bridesmaid dresses, suits)	Design	High	Both
Order or design ceremony programs	Design	High	Both
Design escort cards and seating chart	Design	High	Both
Finalize welcome bag contents and order items	Design	Medium	Both
Order personalized favors if using them	Design	Medium	Both
Confirm honeymoon bookings and travel documents	Booking	Medium	Both

MONTH 9-10 — Final Bookings and Logistics

TASK	CATEGORY	PRIORITY	OWNER
Set RSVP deadline date	Foundation	Critical	Both
Follow up with non-respondents after RSVP deadline	Foundation	Critical	Both
Finalize guest count and submit to caterer	Foundation	Critical	Both
Create preliminary seating chart	Design	Critical	Both
Submit meal counts to venue/caterer	Foundation	Critical	Both
Complete second dress fitting / alterations	Design	Critical	Partner A
Book hotel room for wedding night	Booking	High	Both
Coordinate hotel room block details for guests	Booking	High	Partner B
Write personal vows (first draft)	Design	High	Both
Draft ceremony script with officiant	Design	High	Both

MONTH 11 — Final Stretch

TASK	CATEGORY	PRIORITY	OWNER
Pick up wedding dress (final fitting)	Final Stretch	Critical	Partner A
Assemble and deliver welcome bags	Final Stretch	High	Both
Finalize and print seating chart	Final Stretch	Critical	Both
Print ceremony programs	Final Stretch	High	Both
Create day-of timeline and share with all vendors	Final Stretch	Critical	Both
Create vendor tip envelopes and prepare cash	Final Stretch	High	Both
Confirm arrival times with every vendor	Final Stretch	Critical	Both
Confirm headcount and floor plan with venue	Final Stretch	Critical	Both
Apply for marriage license	Final Stretch	Critical	Both
Write final vows	Final Stretch	Critical	Both

WEEK-OF TASKS

TASK	CATEGORY	PRIORITY	OWNER
Deliver ceremony programs to venue	Week-Of	Critical	Both
Deliver escort cards and seating chart to venue	Week-Of	Critical	Both
Deliver welcome bags to hotel	Week-Of	High	Both
Confirm day-of timeline with coordinator	Week-Of	Critical	Both
Pack personal emergency kit (Section 6 list)	Week-Of	Critical	Both
Get manicure and pedicure	Week-Of	High	Partner A
Attend rehearsal	Week-Of	Critical	Both
Host or attend rehearsal dinner	Week-Of	Critical	Both
Get a full night of sleep (seriously — protect this)	Week-Of	Critical	Both
Eat breakfast on wedding morning	Week-Of	Critical	Both

POST-WEDDING TASKS

TASK	CATEGORY	PRIORITY	OWNER
Sign marriage license with officiant	Post-Wedding	Critical	Both
Submit marriage license to county clerk	Post-Wedding	Critical	Both
Write and mail thank-you notes (within 3 months)	Post-Wedding	High	Both
Update legal name (if applicable)	Post-Wedding	High	Partner A
Order wedding album from photographer	Post-Wedding	Medium	Both
Review and tip any vendors not tipped on day-of	Post-Wedding	High	Both
Write vendor reviews online	Post-Wedding	Medium	Both
Archive this Notion workspace	Post-Wedding	Low	Both

FILTERED VIEWS TO SET UP

At the top of the MASTER CHECKLIST database, click "Add a view" to create the following filtered views. Each view lets you and your partner focus on the right tasks at the right time.

View 1: This Month

- Filter: Month Due equals [current month — update this filter monthly]
- Sort: Priority (Critical first)
- View type: Table

View 2: Critical and Overdue

- Filter: Priority = Critical AND Status does not equal "Done" AND Month Due before current month
- Sort: Month Due (ascending)
- View type: Table
- This is your "fire alarm" view — if anything appears here, it needs same-week attention.

View 3: Partner A's Tasks

- Filter: Owner = Partner A AND Status does not equal "Done"
- Sort: Priority
- View type: List
- Share this view directly with Partner A so they see only their own items.

View 4: Partner B's Tasks

- Filter: Owner = Partner B AND Status does not equal "Done"
- Sort: Priority
- View type: List

View 5: Booking Phase

- Filter: Category = "Booking"
- Sort: Month Due
- View type: Table
- Use this view during the first four months when booking vendors is the primary activity.

View 6: Done (Celebration View)

- Filter: Status = "Done"
- Sort: Month Due (descending — most recently completed first)
- View type: Gallery
- This is your "look how much we've accomplished" view. Open it when planning feels overwhelming.

Page 3: VENDORS Database

The VENDORS page is your vendor CRM. Everything about every hired professional lives here.

CREATING THE DATABASE

Navigate to the VENDORS page. Type `/database` and select "Full page database."

DATABASE PROPERTIES

PROPERTY	TYPE	OPTIONS / NOTES
Vendor Name	Title	
Category	Select	Venue / Photography / Videography / Catering / Bar / Florals / Music-DJ / Beauty / Officiant / Transportation / Stationery / Rentals / Other
Status	Select	Researching / Meeting Scheduled / Quoted / Hired / Paid In Full
Contact Name	Text	
Phone	Phone	
Email	Email	
Contract Signed	Checkbox	
Contract Amount	Number	Format as currency
Deposit Paid	Number	Format as currency
Deposit Date	Date	
Balance Due	Number	Format as currency
Balance Date	Date	
Day-of Arrival Time	Text	(use format HH:MM AM/PM)
Rating	Select	1 Star / 2 Stars / 3 Stars / 4 Stars / 5 Stars
Notes	Text	
Contract Link	URL	Paste Google Drive or Dropbox link to signed contract PDF

Color-code Status options:

- Researching = Gray
- Meeting Scheduled = Yellow
- Quoted = Blue

- Hired = Green
- Paid In Full = Dark Green

GALLERY VIEW SETUP

Add a Gallery view for a visual vendor card layout:

1. Click "Add a view" at the top of the VENDORS database
2. Select "Gallery"
3. Under "Card preview," select "None" (or upload a vendor logo if you have one)
4. Under "Properties shown on card," check: Category, Status, Contact Name, Phone, Day-of Arrival Time
5. Title this view "Gallery — All Vendors"

This gallery view is what you will screenshot and send to your day-of coordinator as a vendor overview.

VENDOR DAY-OF SORT VIEW

Add a Table view filtered and sorted for day-of use:

1. Add a new view, select Table
2. Filter: Status = "Hired" or "Paid In Full"
3. Sort: Day-of Arrival Time (ascending)
4. Show properties: Vendor Name, Contact Name, Phone, Day-of Arrival Time, Notes
5. Title it "Day-Of Vendor Schedule"

This view gives your coordinator a chronological vendor arrival list.

Page 4: GUESTS Database

CREATING THE DATABASE

Navigate to the GUESTS page. Type `/database` and select "Full page database."

DATABASE PROPERTIES

PROPERTY	TYPE	OPTIONS
Last Name	Title	
First Name(s)	Text	
Side	Select	Bride / Groom / Both
Invited	Checkbox	
RSVP Status	Select	Pending / Attending / Not Attending
Meal Choice	Select	Chicken / Fish / Vegetarian / Kids Menu / No Preference
Dietary Notes	Text	
Table Number	Number	
Gift Received	Checkbox	
Thank You Sent	Checkbox	

FILTERED VIEWS

View 1: Attending

- Filter: RSVP Status = "Attending"
- Sort: Last Name (A to Z)
- Shows your confirmed headcount

View 2: Not Attending

- Filter: RSVP Status = "Not Attending"
- Use this to track who declined (useful for thank-you notes and future reference)

View 3: Still Pending

- Filter: RSVP Status = "Pending"
- This is your "who do I need to chase down" view. After the RSVP deadline, this list should be zero.

View 4: By Table Number

- Filter: RSVP Status = "Attending"
- Sort: Table Number (ascending), then Last Name
- Group by: Table Number
- This view becomes your seating chart reference. Print it for the day-of coordinator.

View 5: Thank-You Tracker

- Filter: Gift Received = Checked AND Thank You Sent = Unchecked
- Use this weekly after the wedding to identify outstanding thank-you notes

RUNNING COUNTS (USE THESE ON YOUR HOME PAGE)

To display guest counts on your HOME page, use a **Linked database view** with count properties:

- At the bottom of any view, Notion shows a count of visible rows. Pin the "Attending" view count to your HOME page as a reference.
- For meal counts: use the "By Table" view, then filter further by Meal Choice to get counts by meal type.

Page 5: TIMELINE — Day-of Planning

The TIMELINE is a dedicated document page — not a database. It is your wedding day script, printed and laminated, handed to every vendor and the day-of coordinator.

PAGE SETUP

Navigate to the TIMELINE page. At the top, include:

```
WEDDING DAY TIMELINE
[Partner A] & [Partner B] — [Full Date]
Venue: [Venue Name and Address]
Emergency Contact (Day-of Coordinator): [Name] — [Phone]
Emergency Contact (Partner A's Person): [Name] — [Phone]
Emergency Contact (Partner B's Person): [Name] — [Phone]
```

TIMELINE TABLE STRUCTURE

Create a Notion table (type `/simple table` — not a database) with these columns:

TIME	EVENT / MOMENT	PERSON RESPONSIBLE	VENDOR	NOTES

FULL DAY-OF TIMELINE TEMPLATE

Copy and customize this template. Adjust times for your actual day.

TIME	EVENT / MOMENT	PERSON RESPONSIBLE	VENDOR	NOTES
7:00 AM	Getting ready begins — hair and makeup starts	Partner A	Hair & Makeup Artist	Start with bridesmaids, Partner A last
7:30 AM	Photographer arrives for getting-ready coverage	Coordinator	Photographer	Confirm location night before
8:00 AM	Videographer arrives	Coordinator	Videographer	
10:00 AM	Florist delivers bridal bouquets and boutonnieres	Coordinator	Florist	Confirm delivery location
10:30 AM	First look (if scheduled)	Partner A + Partner B	Photographer	Private location pre-selected
11:00 AM	Wedding party portraits	Photographer	Photographer	Shot list delivered in advance
12:00 PM	Partner A hair and makeup complete	Hair & Makeup Artist		Buffer time built in
12:30 PM	Couple portraits	Photographer	Photographer	
1:00 PM	Ceremony venue doors open for guests	Venue Coordinator	Venue	Ushers in place
1:15 PM	Officiant and musicians/DJ in place	Coordinator	Officiant / Music	Final sound check
1:30 PM	Wedding party lines up	Wedding Party	Coordinator	Order pre-assigned
2:00 PM	Ceremony begins	Officiant		Walk order: [list your specific order]
2:30 PM	Ceremony concludes — couple exits			Petal toss / bubbles / etc.
2:35 PM	Cocktail hour begins	DJ / Band	Music	Guests proceed to cocktail area

2:45 PM	Family formals / portraits	Photographer		List of groupings given to photographer in advance
4:00 PM	Reception doors open	Venue Coordinator		
4:15 PM	Guests find seats	DJ		DJ plays background music
4:30 PM	Grand entrance	DJ		Entrance song pre-selected
4:35 PM	Welcome toast — [Name]			
4:45 PM	First dance	DJ		Song: [Song Title]
4:50 PM	Father-daughter dance / Parent dances	DJ		
5:00 PM	Open dancing begins	DJ		
5:30 PM	Dinner service begins	Catering Captain	Caterer	Signal caterer when ready
6:00 PM	Toasts — [Maid of Honor / Best Man]			Order: [list order]
6:30 PM	Cake cutting	Photographer / Caterer		Signal photographer before cutting
6:45 PM	Open dancing resumes	DJ		
8:30 PM	Last dance announcement	DJ		Signal 30 min before end
9:00 PM	Last dance	DJ		Song: [Song Title]
9:05 PM	Couple's send-off	Coordinator		Guests line up outside

9:15 PM	Couple departs	Transportation		Car confirmed + waiting
9:30 PM	Venue cleanup begins	Venue Coordinator	Venue	Florist retrieves rentals
10:00 PM	Venue vacated	Venue Coordinator		Hard out time per contract

PRINTING AND DISTRIBUTION

Once finalized, print this timeline and distribute it:

- One copy per vendor (email PDF version 1 week before)
- One copy for the day-of coordinator (laminated if possible)
- One copy in the day-of emergency kit bag
- One copy on each getting-ready table

Page 6: NOTES & IDEAS

The NOTES & IDEAS page is your unstructured creative space. Create these sub-pages inside it:

SUB-PAGE 1: VISION BOARD

1. Create a new page titled "Vision Board"
2. At the top, paste your wedding north star sentence
3. Copy and paste inspiration images directly into the page (Notion supports image uploads)
4. To embed your Pinterest board: type `/embed` and paste your Pinterest board URL
5. Add text headers between image groups: "Florals," "Attire," "Venue Vibe," "Table Settings," "Lighting"

SUB-PAGE 2: VOW DRAFTS

1. Create a new page titled "Vow Drafts — [Partner A's Name]" and a separate one for Partner B
2. At the top of each page, add a **Toggle block** (type `/toggle`)
3. Put all vow content inside the toggle

4. Title the toggle: "Private — Do Not Open If You Are [Partner B's Name]"
5. This is not technically secure, but it creates a clear social barrier

Use the page for drafts, scratch ideas, lines you love, things you want to reference from your relationship. Keep revising until 2 weeks before the wedding, then finalize and print.

SUB-PAGE 3: SONG LISTS

Create a page with three sections:

Ceremony Songs:

- Prelude (guests arriving): [running list]
- Processional — Wedding Party: [song title and artist]
- Processional — Partner A/Bride: [song title and artist]
- Signing / Unity Ceremony: [song title and artist]
- Recessional: [song title and artist]

Reception Songs:

- Grand Entrance: [song]
- First Dance: [song]
- Parent Dances: [songs]
- Cake Cutting: [song]
- Last Dance: [song]
- Must-Plays (numbered list): [your top 10-15 songs]
- Do-Not-Plays (bulleted list): [songs that are funny or cringe for your crowd]

SUB-PAGE 4: CEREMONY SCRIPT DRAFT

Create a collaborative document with your officiant. Share the page link directly with them. Include:

- Welcome remarks
- Reading 1 (title, reader's name)
- Vow exchange — include both partners' vow texts here once finalized
- Ring exchange

- Pronouncement
- Recessional cue

SUB-PAGE 5: BUDGET NEGOTIATION NOTES

A private text page where you document:

- What you asked vendors to discount or adjust
- What they agreed to
- What was declined
- Notes on vendor flexibility for future reference

This information is useful if you ever recommend vendors to friends.

Mobile Setup Tips

INSTALLING THE NOTION APP

1. Download the Notion app from the App Store (iOS) or Google Play (Android)
2. Sign in with the same account you used to build the workspace
3. The app will sync your full workspace automatically

PINNING TO YOUR HOME SCREEN

iPhone: Open Notion, navigate to your wedding workspace home page, tap the Share icon, scroll down and tap "Add to Home Screen." Name it something short like "Wedding HQ."

Android: Open Notion, long-press the app icon, select "Add to Home Screen" or use your browser to create a home screen shortcut to the specific page URL.

SETTING UP OFFLINE ACCESS

Notion requires you to visit pages while online for them to cache for offline use.

Before your wedding day:

1. Open the Notion app on your phone while on WiFi

2. Navigate to every page you might need: HOME, VENDORS (especially the Day-of Schedule view), TIMELINE, GUESTS (By Table view)
3. Let each page fully load
4. These pages will now be available offline

On the day-of, if you lose cell service, the cached versions of these pages will still be readable. You will not be able to edit them without internet, but reading the information is what matters.

PARTNER WORKSPACE SHARING

1. On desktop Notion, click "Settings & Members" in the left sidebar
2. Click "Members" then "Invite a member"
3. Enter your partner's email address
4. Set their role to "Member" (gives them full edit access to the workspace)
5. They will receive an email invitation — have them accept on both desktop and mobile

Once both partners are in the workspace, assign tasks to each other using the Owner property in MASTER CHECKLIST. Each partner sees their own filtered view.

--- END OF BONUS 2 ---
